

Accounting

MASTER OF SCIENCE

Northeastern University
**D'Amore-McKim
School of Business**

FUTURE SUCCESS YOU CAN COUNT ON

In today's digital economy, the field of accounting is rapidly evolving, and accountants must be responsive and agile to these advances. D'Amore-McKim's MS in Accounting will prepare you for the future of work with integrated analytics training and current industry best practices from world-class faculty.

Designed specifically for undergraduate accounting majors, this accelerated 7-month program will bolster your accounting expertise and prepare you to sit for the CPA exam with the credit hours you need to pursue licensure and begin your career. Customize your studies toward your goals to specialize in either audit or tax.

In this program, you will examine financial, managerial, accounting, legal, and ethical considerations—all through the lens of Northeastern's signature practice-oriented approach to academics. You will receive expert instruction from industry-leading faculty who will share acumen drawn from years of practice as CPAs and PHDs at "Big 4" and other public accounting firms.

With a 98% job placement rate over the past 5 years, our MS in Accounting program will prepare you to quickly and confidently enter a professional role in the accounting field.

WHAT SETS D'AMORE-MCKIM APART

Education powered by experience.

Gain concrete skills and practice-oriented knowledge in accounting through the real-world lessons brought into the classroom by your professors, leading practitioners in the industry and at the top of their field.

Stackable credits. Successful graduates may be able to apply their degree credits toward an eligible MBA program at Northeastern. This will also make you eligible for the Double Husky Scholarship and receive a 25% discount off your tuition for the remaining credits towards your MBA.

Corporate relationships. The Graduate School of Professional Accounting has deep ties with leading firms in the field and stays in close contact. Program curriculum is designed to reflect the most relevant technology and practices in the industry so that when you start your career, you will feel prepared and ahead of the curve.

Global alumni network. The Graduate School of Professional Accounting, established a half-century ago, has a passionate and loyal alumni base. Our 3,000 graduates—partners, directors, managers, and associates—are links in a supportive chain stretching from Boston to Beijing and beyond.

Personalized career support. Your advisor will be there with you every step of the way for one-on-one advice, encouragement or assistance along your journey to career progression.

In just 7 months, I developed advanced analytical and critical thinking skills. I also noticed a significant development in my technical skills. These have helped me to become the best version of myself."

Debby Salami, MS in Accounting '18

Northeastern's D'Amore-McKim School of Business prepares people and organizations to thrive in a global business environment of rapid-fire change driven by converging digital technologies. The school develops leaders and innovators who are proficient in human, data, and technological literacies; global in outlook and entrepreneurial in mindset; and invested in lifelong learning for themselves and their teams.

Northeastern University

Founded in 1898, Northeastern is a global research university and the recognized leader in experience-powered lifelong learning. Our world-renowned experiential approach empowers our students, faculty, alumni, and partners to create impact far beyond the confines of discipline, degree, and campus.

Our locations—in Boston; the Massachusetts communities of Burlington and Nahant; Charlotte, North Carolina; the San Francisco Bay Area; Seattle; London; Toronto; and Vancouver—are nodes in our growing global university system. Through this network, we expand opportunities for flexible, student-centered learning and collaborative, solutions-focused research.

Northeastern's comprehensive array of undergraduate and graduate programs—in on-campus, online, and hybrid formats—lead to degrees through the doctorate in nine colleges and schools. Among these, we offer more than 140 multidisciplinary majors and degrees designed to prepare students for purposeful lives and careers.
