In today's digital economy, the field of accounting is rapidly evolving, and accountants must be responsive and agile to these advances. D'Amore-McKim's MS in Accounting will prepare you for the future of work with integrated analytics training and current industry best practices from world-class faculty.

Designed specifically for undergraduate accounting majors, this accelerated 7-month program will bolster your accounting expertise and prepare you to sit for the CPA exam with the credit hours you need to pursue licensure and begin your career. Customize your studies toward your goals to specialize in either audit or tax.

In this program, you will examine financial, managerial, accounting, legal, and ethical considerations—all through the lens of Northeastern's signature practice-oriented approach to academics. You will receive expert instruction from industry-leading faculty who will share acumen drawn from years of practice as CPAs and PHDs at "Big 4" and other public accounting firms.

With a 98% job placement rate over the past 5 years, our MS in Accounting program will prepare you to quickly and confidently enter a professional role in the accounting field.

In just 7 months, I developed advanced analytical and critical thinking skills. I also noticed a significant development in my technical skills. These have helped me to become the best version of myself.”

Debby Salami, MS in Accounting '18
Northeastern University

Founded in 1898, Northeastern is a global research university and the recognized leader in experience-powered lifelong learning. Our world-renowned experiential approach empowers our students, faculty, alumni, and partners to create impact far beyond the confines of discipline, degree, and campus.

Our locations—in Boston; the Massachusetts communities of Burlington and Nahant, Charlotte, North Carolina; the San Francisco Bay Area; Seattle; London; Toronto; and Vancouver—are nodes in our growing global university system. Through this network, we expand opportunities for flexible, student-centered learning and collaborative, solutions-focused research.

Northeastern’s comprehensive array of undergraduate and graduate programs—in on-campus, online, and hybrid formats—lead to degrees through the doctorate in nine colleges and schools. Among these, we offer more than 140 multidisciplinary majors and degrees designed to prepare students for purposeful lives and careers.
