

MS in Finance Full-time Quantitative Finance Curriculum

To keep pace with fintech innovations and new regulations, you must stay sharp—mastering data and technological skills.

D'Amore-McKim's STEM-designated Full-Time MS in Finance (Quantitative Finance) is designed to provide you with financial knowledge and mathematically demanding technical and analytical expertise. Courses integrate economics, mathematics, and computer science with financial theory and application to prepare you to thrive in a financial services industry that is changing rapidly with the introduction of new technology. If you are interested in pursuing the Chartered Financial Analyst designation, you will find CFA preparations integrated into your coursework.
