

"DATA FELLOW"

The Digital, Analytics, Technology and Automation Initiative (DATA) hosts the Analytics Research Lab at Northeastern University. Analytics Lab alumni are invited to apply for DATA Fellow positions for the Fall 2020 Semester. Rare exceptions (for non-alumni) can be made. We welcome undergraduate and graduate students from all colleges to apply. Appointments are on semester basis and renewable until graduation.

What is a DATA Fellow?

DATA Fellows collaborate with DATA faculty leaders on running the Analytics Lab and a wide scope of academic or industry projects.

DATA Fellows are eligible for small DATA research grants for some projects (subject to funding availability).

Why join the DATA Initiative Analytics Lab?

"You are challenged to learn new skills, relearn strengths and unlearn misconceptions. For 4 months, I had the opportunity to work with real-world data and validate my findings together with academic theories."

- Spring 2020, Research Lab Analyst
