

# → MS in Finance Online Curriculum

**Expand your expertise. Become a leader in today's financial field shaped by new technology.**

D'Amore-McKim's Online Master of Science in Finance provides the financial knowledge you need to excel in the high-paced financial field that is rapidly changing with the introduction of new technology. Worldwide, financial services employers seek qualified financial experts who can diversify their financial portfolios, effectively minimize risks, maximize return on investments, and sustain growth. If you are interested in pursuing the Chartered Financial Analyst designation, you will find CFA preparations integrated into your coursework.
