

MS in Management (MS x) Part-time Curriculum

Prepare for the next step in your career with in-demand business skills and specialized expertise.

The MS x is D'Amore-McKim's refreshed take on a management degree, focusing on flexibility in all of your classes—even your core coursework—so you can chart your own path to achieving your goals. Whether you want to build on expertise from past coursework or acquire entirely new skills, the MS x program offers the ability to personalize your learning at every step.

FLEXIBLE CORE COURSES

You'll develop core competencies employers seek: the basics of accounting and finance, data presentation & analysis, a customer orientation through all parts of business, and more.

Choose four core courses from fundamental business areas that give you the foundation you want and need to be successful: Managing Organizations, Data-Driven Management, Strategy & Growth, Finance & Operations. Select one course from each of these market-aligned areas shown on page 2.

ELECTIVE COURSES

Follow your passion and select two elective courses that will help you achieve your professional goals.

If building deep expertise in an industry outside of business would benefit you, you may select an interdisciplinary elective at another Northeastern graduate school. An extensive list of eligible courses is available online.

CONCENTRATIONS [SELECT ONE]

Take four courses in one of these concentration areas and gain deep business expertise:

- Analytics
- Brand Management
- Business Management for Healthcare
- Corporate Finance
- Corporate Innovation
- Entrepreneurship
- International Business
- Investments
- Leading People and Organizations
- Marketing
- Marketing Analytics
- Operations and Supply Chain Management
- Sustainability and Business

PART-TIME MS IN MANAGEMENT (MS X) | PROGRAM TIMELINE

*May be completed at a flexible pace but is usually completed in less than two years.

You are encouraged to work with your academic advisor when planning your schedule. The curriculum is subject to change by D'Amore-McKim faculty. Not all electives may be offered every term. International students will become eligible to apply for up to 12 months of Optional Practical Training.
