

# Graduate Certificate in Corporate Renewal

## REINVENT TROUBLED COMPANIES

Turning around a business in crisis requires leaders with an agile and strategic mindset—and a portfolio of skills from multiple disciplines. Building your expertise in financial strategy, innovation, and restructuring can set you on a path to becoming a savvy operations leader or an in-demand turnaround specialist.

By earning your Graduate Certificate in Corporate Renewal from Northeastern University, you'll learn the essentials of guiding companies through workouts, bankruptcies, liquidations, and restructuring—and help them find success on the other side. You'll build confidence through applied project work and case studies, learning directly from the experiences of our excellent faculty, who are financial industry leaders, top consultants, and founders of startups.

In just four courses—with the option to take a fifth course to expand your learning—you'll develop a deeper understanding of the management and financial issues companies face when they're in crisis, and build skills to facilitate the process of reinvention and restructuring. Depending on the electives you choose, you'll have an opportunity to explore critical topics in greater depth, such as strategic planning, innovation, and negotiation.

Your courses will reflect the cutting edge of turnaround management, giving you a rich view of current best practices and preparing you with a suite of analytical skills and techniques.
