By integrating co-ops into your law school experience, Northeastern enables you to graduate with polished legal skills, valuable connections in your field and the confidence and resume of a legal professional.

"I was the chief compliance officer for the 360 Huntington Fund. I watched students give stock pitches, and then they shot questions to me about mergers and acquisitions, litigation, and the value of patents. I loved that advisory role.

My ultimate goal is to have someone come to me and say, 'I have this vision of what I want to accomplish. And I have this list of problems I don't know how to solve.' And I walk them through the solutions." – Austin Jones, JD/MBA'21
